It is with great excitement I introduce my book character, Katie Ladybug. Her first book "A Journey into Mindfulness" takes the reader and listener into the discovery and expansion of conscious awareness. Our senses and emotions are "tools" which are actually SUPERPOWERS given to human beings to discern information. Our worlds are full of DISTRACTIONS and we are not taught in our current culture how to listen to our inside self. Katie guides you into the practice of getting still to find your inner PEACE thus developing your conscious awareness and your abilities to process your emotions. She is the kind of super hero needed as we heal ourselves and bring COMPASSION to the forefront of our interactions with others.

Follow me on all my social media channels (@katieladybugbook) for updates!

Katie Ladybug is for all ages, but by using an animated character it makes the process of learning fun and easy to innerstand. Contact me directly to schedule book signings and creative mindfulness events using art and/or yoga.
